About us...

The Portrait of Empowerment (TPOE) is a not-for-profit charitable organization, founded in 2000.

Our holistic approach is tailored to helping our community support the healthy development of youth by promoting positive personal empowerment, stronger academic skills, civic responsibilities, and leadership skills; learning alternatives to negative behaviors; which includes building bonds and commitment to families, schools, community-at-large and peer groups; providing opportunities, skills and recognition in family, schools, communities, and peer groups and nurturing positive characteristics.
